

Biodynamic Agriculture & Gardening Calendar, Year 2024

Agricultural Practices like field preparation, sowing, manuring, harvesting etc. performed as per constellation are more effective and beneficial. Every Constellation has dominant elemental influence and affects four specific parts of the plant as enumerated - Seeds /Fruits- associated with fire: There is no ripening without warmth. Tubers/Root- is associated with the earth: There is no base and ground without earth. Flower- corresponds to air and light: There is no light without air. Leaf- is associated with water.

Month	Recommended Dates for Sowing		Recommended Sowing Dates as per the Moon Rhythm				Avoid Sowing			Moon Position		
	Moon Opp. to Saturn 1*	48 Hours before Full Moon	Seed/Fruit Cereals, Legumes, Seed and Crops. 	Tubers/Roots Potato, Tomato, Radish, Carrot 	Flowers Cauliflower, Rose, Marigold etc. 	Leaves Spinach, Methi, Sugarcane, Forage crops, Lettuce etc. 	Moon Node	Earth in Relation with Moon		New Moon	Ascending 2*	Descending 3*
								Apogee	Perigee			
January' 24	28	22	2,10,18,19,28	3,4,12,21,30	6,14,15,23,24	8,9,16,26	5,17,31	1,29	13	11	12 -- 24	1 -- 11, 25 -- 31
